

Appl. No.: 09/625,277

Amendment dated March 19, 2004

Reply to Office Action of December 19, 2003

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) A method for previewing fonts on a computer in a font preview display area comprising the steps of:

displaying text in a first font format in the font preview display area; and

concurrently displaying the same text in a second font format differing from the first font format in the font preview display area.

2. (Original) The method according to claim 1, wherein the text is displayed in a paragraph display format.

3. (Original) The method according to claim 1, wherein the text is displayed in alphanumeric order.

4. (Original) The method according to claim 1, wherein said steps of displaying the text include displaying the text in response to a real time input.

5. (Original) The method according to claim 1, wherein the font format includes font type.

6. (Original) The method according to claim 1, wherein the font format includes font size.

7. (Original) The method according to claim 1, wherein the text is displayed in a waterfall display format.

8. (Original) The method according to claim 1, wherein the first font format and the second font format are part of a predefined font group.

9. (Currently Amended) In a computer system having a graphical user interface including a display and a user interface selection device, a method of providing and selecting from the display, comprising the steps of:

receiving a selection of at least two fonts; and

concurrently displaying a same text in the at least two fonts in a font preview area of the display.

10. (Original) The method according to claim 9, further comprising the steps of:
receiving text input; and

displaying the input text in the at least two fonts in the font preview area in real time.

11. (Original) The method according to claim 9, wherein the at least two fonts are from one predefined font group.

12. (Original) The method according to claim 9, wherein said at least two fonts are different forms of the same font.

13. (Original) The method according to claim 9, further comprising the steps of:
receiving a selection of a font size; and
displaying the text in the at least two fonts in the font size in the font preview area in real time.

14. (Original) The method according to claim 9, further comprising the step of displaying the at least two fonts in plural font sizes in the font preview area.

15. (Original) The method according to claim 9, generating a print output including the text as displayed in the at least two fonts in a font preview area.

16. (Canceled) A method of previewing fonts in a font menu comprising the steps of:

Appl. No.: 09/625,277

Amendment dated March 19, 2004

Reply to Office Action of December 19, 2003

displaying a first font type in its own font face; and

concurrently displaying a second font type in its own face.

17. (Canceled) The method according to claim 16, further comprising the step of
concurrently displaying a third font type in a default font face.
